

Kids Film Festival International

Thank you for your interest in Kids Film Festival International. Our aim is simply to create an environment where Kids can feature and participate in the creation of short films, while working with the best in the industry.

About Us:

In collaboration with International directors, Actors and Media outlets we have developed a very exciting International program that will enable Kids between the ages of seven and eighteen to live their dreams in the film industry. No experience needed to apply.

Our two days workshops emphasis on the practical approach as we believe that at these ages the children learn better by applying and being eagerly involved. From the creating of stories, developing of scripts and casting of roles, our workshops are designed to provide opportunities for kids to develop their passion and love for the industry, while giving them a lifelong experience and portfolio.

As we travel from one city to another, we are excited about creating content to be featured on our partners TV channels as well as Online platforms.

We are very excited about this project and look forward to building the acting confidence of our kids as well as giving them a platform to be able to feature in bigger film projects in the future.

Fees:

Our fees vary as this is influenced by the location (city).

The fee includes:

1. Tea and Juice in the morning.
2. Full lunch and drinks.
3. Cost of travel to location for shooting.

After the workshop, your child will get:

1. A personal interview reels.
2. High resolution BTS photos.
3. A link to the full film when released online.

How do you pay.

The proceeds of this program are donated to the Cancel Cancer Africa UK charity for its work in rural Africa.

30% of the fee must be paid on registration. Please note that this registration fee is not refundable. The balance can be paid in instalments across three or four months.

Times: 8 hours with breaks. **Location:** TBC depending on scripts.
