FILM WORKSHOP

To develop youths Social skills.
To help build self-confidence and creativity in our participants.
To produce morally motivated professionals in the industry.

WHAT WE ARE DOING:

We are working hard in creating an environment that enables youths to engage with one another through short educational workshops.

The content of these films are to encourage families and youths who are facing everyday life challenges and promote good values.

The programs are built on the principles of love and caring for one another.

The two days workshops emphasise more on practicals, for we believe people learn and interact more by being actively engaged.

From the **creating of stories**, **developing of scripts** and **casting of roles**, our workshops are designed to provide opportunities to help develop passion and love for the industry while giving the youths an opportunity to make new friends.

As we travel from one city to another, we are excited about creating content to be featured on digital and broadcasting platforms.

We are very excited about this project and look forward to building the acting confidence of our youths as well as giving them a platform to be able to feature in bigger film projects in the future.

WHAT SUPPORT DO WE NEED

We need kind partners to help cover the cost of workshop/s, to enable us to involve the less privileged youths in the community, who may not readily have the funds to attend similar programs.

We work with our partners to identify and develop the city/workshop of their choice.

Please see the breakdown below of the various packages available for sponsorship. On the contrary, we are happy to keep your support anonymous is you desire.

Proceeds from these projects are donated to the Cancel Cancer Africa Charity. This charity is working hard to help raise cancer awareness in rural Africa

COSTINGS: Individuals. Each person's fee is £180.00 or the equivalent depending on the city.

The fee also includes:

- Tea and Juice in the morning.
- Full lunch with drinks.
- Cost of travel to location for shooting within the city.

After the workshop, each person gets:

- A personal interview reels.
- High resolution BTS photos.
- A link to the full film when released online.

Times: 8-10 hours par day. Normally from 10am depending on the weather and day light.
